Tubes and Tube Bends for the Auger conveyor

Tubes and Tube Bends for the Auger conveyor

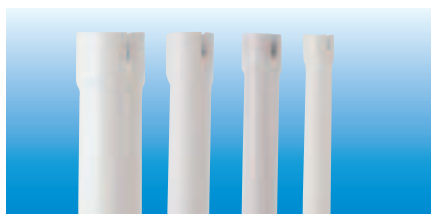

The tubes and tube bends from barku Kunststofftechnik are easy, reliable and flexible components for the auger conveying. Your feed will be transported to the target without quality losses.

The Advantages

- universal usable for each type of stable
- for high conveying capacity
- fast and easy assembling
- high class Plastic (very high impact and UV-resistance rigid-PVC)

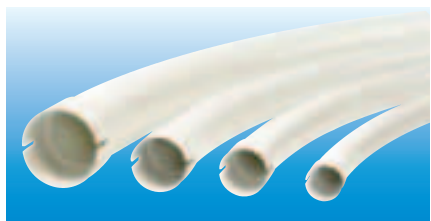

Tubes for auger conveying with sleeve and clamp slit

Item	Dimension [mm]	Length [mm]
6060-04	56 x 51	3055
6061-04	75 x 68,5	3080
6062-04	89 x 82	3095
6063-04	127 x 117	3105

Bends for auger conveying with sleeve and clamp slit

Item	Dimension [mm]	Radius [mm]	Angle
6070-04	56 x 51	R1500	45°
6071-04	75 x 68,5	R1533	45°
6072-04	89 x 82	R1568	45°
6073-04	127 x 117	R1700	45°
